1. DEAR CUSTOMERS

Thank you for purchasing the UN-014 Compressor Nebulizer.

This device is a compact medical device designed to deliver the medication prescribed by your doctor.

The compressor creates a stream of air that travels through the clear tubing to the nebulizer which generates a mist of medicinal particles small enough to reach the furthest parts of your lungs to provide maximum benefit for the treatment of asthma, allergies and other respiratory disorders.

Your Compressor Nebulizer should be used only as directed. Do not use this device for anything other than as prescribed by your doctor.

Before use, read this instruction manual thoroughly.

2. PRELIMINARY REMARKS

This device conforms to the European Directive 93/42 EEC for Medical Products. This is proved the CE conformity marking CE0120. (0120: The identification number of the Notified Body.)

4. IMPORTANT SAFEGUARDS

⚠️ CAUTION:

1. Federal Law restricts the sale or use of this device to an order by a physician.

2. Follow the instructions of your physician when operating this device.

3. This product is a nebulizer for the inhalation of medical aerosols and is suitable for solutions used by children. Use only the type and amount of medication prescribed by the patient’s doctor.

4. This device is intended for aerosol therapy only. Any other use is not recommended.

5. Do not untwist the jet nebulizer during operation.

6. Do not pour more than 6ml of solution into the jet nebulizer.

⚠️ DANGER: Risk of electrocution.

7. Always unplug the unit immediately after using.

8. Do not use while bathing.

9. Do not place or store the unit where it can fall or be pulled into a tub or sink.

10. Do not place or drop the device into water or other liquid.

11. Do not reach for a product that has fallen into water. Unplug immediately.
**WARNING: Risk of burns, electrocution, fire or injury**

1. Electrical Shock Hazard: Do not remove the cabinet or open the cover.

2. Disconnect the power cord from the electrical outlet before cleaning or servicing.

3. Do not place this equipment near hot, sparking or burning objects.

4. Do not use oil or grease on or near this device.

5. Turn the unit off when it is not in use.

6. Keep the cord away from HEATED or HOT surfaces.

7. NEVER drop or insert any object into any opening.

8. NEVER block the air openings of the product or place it on a soft surface, such as a bed or couch, where the air openings may be blocked.

9. Avoid operating in wet or damp locations.

10. Unplug the unit before filling the nebulizer.

11. When using this product near TVs, microwave ovens, pulse telephones, X-rays, or other strong electric field, there may be electrical interference. It is recommended to be far away from these devices when using the nebulizer.

**WARNING: Risk of infection**

1. This nebulizer is intended for both adult and pediatric patient use.

2. Cleaning of the nebulizer is recommended after each aerosol treatment. Disinfecting is recommended once a day. Please follow cleaning and disinfecting instructions in this manual.

This unit is not suitable for use in anesthesics breathing systems. This unit is not suitable for solutions in suspension or high viscosity liquids. In such cases information should be sought from the drug supplier.
5. INTRODUCTION

This compressor nebulizer is designed to deliver a prescribed medication solution to treat patient respiratory disorders, such as asthma, allergies and bronchitis. The nebulizer converts the medication solution into an aerosolized mist which is inhaled by the patient through the mouthpiece or mask. Read this manual thoroughly before using the nebulizer and store it for future reference.

Protection against electric shock

- Classified as Type
- Type BF applied parts: Mouthpiece, masks

Degree of safety in the presence of flammable anesthetics or oxygen — No AP/APG (not suitable for use in the presence of flammable anesthetics or oxygen)

Mode of operation — Continuous

IPX0 — No special protection against harmful ingress of water.

8. OPERATING INSTRUCTIONS

1. Place compressor on a stable, sturdy and flat surface so that the unit can be easily reached when you are seated.

2. Pull out the power cord from the base of the device and make sure that the device is in the "Off" (O) position by pressing on the left side of switch.

3. Plug power cord into a wall outlet.

4. Connect one end of the nebulizer tubing into the air outlet connector.

5. Add the prescribed solution through the opening on the cup using an eye dropper or pre-measured dose container. The "6cc" marking on the nebulizer cup is the maximum level. Medication cannot be filled beyond the maximum level.

6. Assemble mouthpiece and insert it into the top of the nebulizer cup. If an aerosol mask is used, connect the bottom of the mask to the top of the nebulizer cup.

7. Connect the tube to nebulizer air inlet connector.

8. Turn the power on to start the unit.

9. Initiate the treatment by placing the mouthpiece between the teeth. Inhale and exhale through the mouthpiece.

10. If an aerosol mask is used, place the mask over the mouth and nose.
9. CLEANING

1. Turn the power off and unplug from the wall outlet.

2. Remove the tube from the air inlet.

3. **TO CLEAN:** Disassemble the mouthpiece, nebulizer cup, chamber and baffle, and wash these items in hot water with dish-washing detergent. Rinse these items thoroughly to remove the detergent and air dry.

4. **TO DISINFECT:** Mix one part of white vinegar with 3 parts hot water in a clean container. Submerge mouthpiece, nebulizer cup, chamber and baffle for half an hour in the solution. Remove from solution and let air dry.

5. There is no need to clean the tube. If necessary wipe the surface regularly.

Note:

- Replace the nebulizer accessories including adult mask, child mask, mouthpiece, nebulizer cup, Air tube after using 6 months.
- Replace the filter every 30 days or if the filter turns grey.

⚠️ **CAUTION:** The jet nebulizer must be changed if it becomes clogged.

⚠️ **CAUTION:** The nebulizer and accessories must not be boiled.

10. MAINTENANCE

1. The air compressor filter should be replaced when it turns gray. Additional filters can be procured from your dealer.

2. Only authorized personnel shall make repairs to this product.

⚠️ **CAUTION:** The nebulizer may be damaged if used with a dirty filter or if the filter is replaced by some other material such as cotton. Do NOT operate without a filter.
